2016 SAC PRO SPECIFICATIONS

Enclosure

Built-in Through-wall style with rear access

The SAC PRO model sits behind a secure wall and only a portion of the machine is seen through a window style opening. This model is very secure and comparable to a traditional ATM bank machine. It is controlled by computer screen in the back-side of the machine.

Weather resistance

Optional weather resistance package available to allow exterior use

Money Handling

Bill Dispenser 4 bill cartridges with capacity of 400 each

Coin Dispenser 6 coin hoppers

Capacities:

Coins: \$0.05	960 Nickels, 24 Rolls, \$48.00
\$0.10	1500 Dimes, 30 Rolls, \$150.00
\$0.25	920 Quarters, 23 Rolls, \$230.00
\$1.00	625 Loonies, 25 Rolls, \$625.00
\$2.00	1250 Toonies, 50 Rolls, \$2,500.00
Total Coin Value:	\$3,553.00
Bills: \$5.00	400 \$5 Bills, \$2,000.00
\$10.00	400 \$10 Bills, \$4,000.00
\$20.00	400 \$20 Bills, \$8,000.00
\$50.00	400 \$50 Bills, \$20,000.00
Total Bill Value:	\$34,000.00
Total Capacity:	\$37,553.00

Notes:

Optionally, you can double the capacity of the \$20 bills instead of having \$50

SAC AUTOMATED CASHIER MACHINE

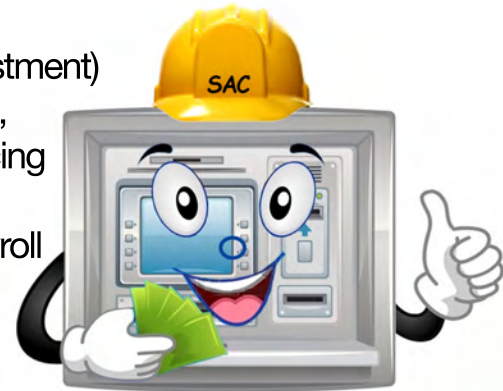

FINANCING AVAILABLE

Ideaz has partnered with Patron West to finance the Solum Auto-cashier for bottle depots. This includes a Lease-To-Own flexible financing arrangement with several advantages:

- Get the equipment you need today without depleting your cash flow.
- Leasing allows you to keep tight control over your business cash flow by keeping equipment costs at a fixed monthly rate.
- Leasing gives your business a tax saving advantage that allows you to use the expense within the same tax year it was paid.
- Avoid the hassle of complicated Capital cost allowance (CCA) calculations
- Ask your accountant about the benefits of leasing instead of traditional financing

Many depots have already calculated the ROI (Return-On-Investment) and found the cash machine could pay for itself in 6-24 months, depending on the size of the depot. Now we are offering financing to make that ROI even more attractive. With payments spread over 36 months, SAC may be the cheapest worker on your payroll and doesn't charge overtime or take days off. SAC literally pays for himself with saved labor costs as he works for you.

FINANCING DETAILS:

Down payment: 10% (\$2,600 + GST)

Monthly Payments: \$897.94* + GST

Lease buy-out at end of term (residual): \$10

Production time: The factory set aside time to manufacture these machines twice per year – Jan-Mar & Jul-Sep. All orders placed **before December 31** should be shipped in April and installed in May. Late orders may get bumped until next fall.

Support: Support is included for the first 12 months after the machine is installed and operational.

Flexibility: This is only one of many optional terms. We can make your financing fit your needs.

*Based on \$26,000 price for 2016 SAC PRO base model
